Professional Summary

IAM Consultant with hands-on experience at Deloitte, specializing in Identity and Access Management solutions across Okta and Auth0. Experienced in owning IAM implementations end-to-end—from requirements analysis and solution architecture to development, testing, deployment, UAT, production release, and hypercare. Strong expertise in SSO, SAML, OAuth 2.0, OIDC, SCIM, identity lifecycle management (JML), and identity governance, with a focus on building secure and scalable solutions.

Combines strong technical depth in JavaScript, Node.js, React, Python, and automation with the ability to independently drive technical delivery, coordinate stakeholders, translate business requirements into solutions, and identify opportunities to improve security and operational efficiency. Expanding into AI-driven IAM and Identity & Access Management for AI agents, focusing on agentic systems, OPA-based authorization, and intelligent identity automation.

Education

SRM Institute of Science and Technology, Chennai 2019 – 2023
B.Tech in Computer Science - CGPA: 9.04/10

Sri Venkateswara Classes, Vizag 2017 – 2019
Class XII - CGPA: 8.3/10

Delhi Public School, Vizag 2016 – 2017
Class X - CGPA: 9.2/10

Skills

- **Frontend** - HTML, CSS5, Bootstrap, JavaScript, React.js, Angular, Netlify.
- **Backend** - Node.js, Express.js, EJS, JQuery, REST APIs, Postman, MongoDB Compass, Django, Flask, SpringBoot, EmailJS, Render, Heroku.
- **Database/ State Management** - Redux Saga, MongoDB, Mongoose (Database), SQL Database
- **Software Development** - C++/C, JavaScript ,Python3, Java, Shell Scripting, Go Lang
- **Dev Ops** - Terraform, Kubernetes, Docker, Github, Gitlab, Jenkins
- **Cloud Platforms** - AWS, Azure, GCP
- **IAM** - Okta, Auth0, Sailpoint, Saviynt, SAML, OAuth 2.0, OIDC, WsFed, SWA, PING AIC (ForgeRock)
- **Soft Skills** - Interpersonal Skills, Creativity, Work Ethic, Problem-Solving Abilities, Time Management

Certification

- Okta Certified Consultant
- Auth0 Certified Developer - CIC
- Okta Certified Workflows - Specialty
- Okta Certified Administrator
- Okta Certified Professional
- Okta Certified Developer - WIC
- Okta Certified Access Gateway - Specialty
- PingOne Advanced Identity Cloud: Access Management Advanced Skills
- Cloud Digital Leader Certification
- IBM Cybersecurity Analyst Professional Certificate
- Auth0 Specialist

- Auth0 Consumer Application Implementation Champion
- Google IT Automation with Python Professional Certificate

Experience

Consultant 2 - IAM Developer, Deloitte USI – Hyderabad, India Nov 2023 – Present

- **Own end-to-end IAM solution delivery** across **Okta and Auth0**, driving requirements analysis, solution architecture, development, testing, UAT, deployment, production release, and hypercare.
- **Architect and implement enterprise SSO and CIAM solutions** using **SAML, OAuth 2.0, and OIDC**, integrating cloud and on-premise applications with a focus on security, scalability, and user experience.
- Specialized in **Okta and Auth0 capabilities** including **CIAM, MFA, Adaptive Authentication, Identity Governance (IGA), Lifecycle Management (JML), Workflows, and Privileged Access Management**.
- Designed and implemented **Okta Identity Governance (IGA)** solutions covering **access requests, certification campaigns, access reviews, entitlement governance, and remediation workflows**.
- **Automated Joiner-Mover-Leaver (JML) processes** and **RBAC-based provisioning** using **Okta Workflows**, reducing manual operational effort by **50%+**.
- **Owned complex Okta Workflows implementations** integrating enterprise applications and APIs using **OAuth-based connections**, event-driven automation, conditional logic, and error-handling mechanisms.
- Developed **Python automation frameworks** for large-scale identity and entitlement migration, incorporating **multithreading, retry mechanisms, error handling, and API rate-throttling** for reliable execution.
- Built **Node.js services and React SPAs** implementing secure authentication patterns including **Authorization Code + PKCE, Refresh Tokens, and Private Key JWT**.
- Implemented **event-driven identity automation** to detect inactive accounts, trigger remediation, and automatically revoke access, strengthening **security and compliance**.
- Managed IAM infrastructure using **Terraform (IaC)**, with **GitLab CI/CD and Docker** pipelines supporting consistent and automated deployments across environments.
- Customized **Auth0 Actions and authentication flows** for advanced authentication, MFA orchestration, extensibility, and custom business logic.
- Designed **multi-tenant CIAM architectures** using **Realms, delegated administration, RBAC, and ABAC** to support tenant-specific access and administrative boundaries.
- Integrated legacy applications using **Okta Access Gateway (OAG)** and header-based authentication, including non-standard enterprise authentication requirements.
- **Exploring and developing AI-driven IAM capabilities**, including **agentic identity automation, intelligent role mining, policy-based authorization using OPA, and AI-assisted identity governance**.
- Working on **IAM for AI agents**, focusing on **agent identity, authentication, authorization, access governance, and policy enforcement** for AI-driven applications and agentic systems.
- Conducted **POCs and technical evaluations** across **Okta AI capabilities, Auth0, AI-driven IAM, agentic systems, OPA-based authorization, and advanced CIAM use cases**.
- **Independently drive technical engagements**, translating business requirements into IAM architectures, coordinating stakeholders, managing technical dependencies, and driving solutions through **UAT and production release**.
- Act as a **technical owner for production IAM solutions**, driving incident resolution, root-cause analysis, security improvements, and post-production stabilization.
- **Lead technical discussions, RFP responses, solution presentations, and client demonstrations**, communicating IAM architectures and technical solutions to business and technical stakeholders.
- Delivered **technical enablement and knowledge-sharing sessions** on **Okta, Auth0, Workflows, IGA, CIAM, and emerging AI-driven IAM capabilities**.

Risk and Financial Advisory Intern, Deloitte USI – Hyderabad, India Jun 2022 – Aug 2022

- Learned basics of **IAM** and various authentication protocols such as **SAML**, **SWA** and **OIDC**.
- Worked on setting up directories, life cycle management, password policies, access request workflow, **adaptive MFA**, **org2org**, API and JIT.

- Wrote **Java functions** for downstream application to parse the payload returned via headers by OAG after successful user authentication.
- **Conducted working sessions** with client to troubleshoot various challenges faced while integrating applications with OAG.
- Prepared for **Okta Certified Professinal** exam.

Sigmoidstar, Frontend Developer Intern – Delhi, India Nov 2020 – May 2021

- Build **70%** of the front end of the Campaign web app, improving performance by **40%**.
- Worked with **React.js** , **Tailwind** and **Css** to build the **front-end** of Campaign Management Application.
- Used **Redux-Saga** for state management.
- Developed multiple pages of the appPolicyBot Chatbot using **Dialogflow**.
- Build **Flask API** for NLP queries.

Projects

Swad App | [Active Link] github.com/SwadApp

- Implemented SSO, MFA, and **account-type-specific customised access levels** by integrating **Okta**.
- Used **React.js** to build the frontend of the website.
- Worked with **redux-saga** for state management
- Used **Node** and **Express** to build the backend of the website
- Used **MonogoDb** as the database and used **Mongoose** to create schemas and models.

ReactOktaSPA | [Active Link] github.com/ReactOktaSPA

- Developed a **React SPA application** utilizing **OAuth 2.0 Authorization and Refresh Token flow with PKCE** for Okta authentication.
- Implemented secure authentication and token management using **@okta/okta-auth-js** and **@okta/okta-react** libraries.
- Enhanced application security and user experience through integrated user validation and token handling.

Competitions And Awards

Awards | Deloitte USI

- Received **5 Applause Awards** and **4 Spot Awards** for **exceptional ownership, technical excellence, collaboration, and high-quality delivery** across IAM engagements.
- Recognized by Client & Deloitte for **delivering complex IAM solutions**, driving additional project contributions, and successfully meeting **aggressive delivery timelines**.

Fix-A-Thon-2022 | Microsoft

- Secured **Top 6** among **35000+** participants.

CyberKshetra-2021 | Deloitte USI

- We ended up at the **9th spot** with a total of **7000+ entries**.

DSA | Leetcode

- Secured global rank **2139** and AIR **444** in Leetcode Weekly Contest 326. Helped over **20K+** people by providing over **225+ solutions** on Leetcode

Techknow-2019 | Github

- **Won** the hackthon by making a smart socket using ESP8266 module, to control the switch board.
